

Green Office Certification

Calling All BGSU Staff and Faculty!

The Campus Office of Sustainability is accepting applications for your office, department, or lab to become Green Office Certified! How you ask? We've made it easy to find out! Check out our [website](#) and review our resources. Fill out the Green Office checklist to the best of your ability and then reach out to the Office of Sustainability at greenbg@bgsu.edu to set up an initial office visit. If your office meets the criteria to receive the Green Office Certificate, we'll set up a time to present your award and take a photo to be featured on our website.
