¹Students are included in these data if they "complete" the Graduation Survey. Students who responded at the time of commencement that they were "looking for a job" were sent a follow-up survey six months post commencement. Those students who responded to the follow-up survey are included in the data set, and those students who do not respond to the follow-up survey are excluded from the data set.

²Percent with plans includes all students who indicated an employment status other than "Looking for a Job."

Prepared by the BGSU Office of Academic Assessment.
