

Earth Month

WYMO

Every year, we have the annual WYMO event that runs from April to end of the spring semester.

**WYMO = When You Move Out,
Don't Throw It Out!**

When clearing out your dorm, apartment, or closet this spring, donate your unwanted items to the ReStore! This helps save items from landfills and offers the potential for them to be recycled, reused, or repurposed.

Check your residence hall for WYMO Donation boxes starting April 11th!

Did you know?

The SLC is a new certificate through the Marvin Center that focuses on sustainability leadership!

This 6-week long course is every Tuesday at 7:30 PM in Olscamp 208.

Participants will learn about the connection between sustainability and leadership and receive a certificate at the end of the course.

If interested, keep an ear out to register for next semester!
