

# The Recycler

## Don't flake on Sustainability!

### Sustainable Wish-List

#### • Reusable sandwich bags

Get rid of single-use plastic bags in your lunches with reusable sandwich and snack bags.

#### • Grocery produce bags

Skip the plastic bag at grocery stores for your fresh produce by using reusable grocery produce bags.

#### • Thermal Mug

Keep your coffee warm and save on single-use coffee cups.

#### • Reusable Beeswax Wraps

Get rid of using plastic wrap and use this to keep food fresh!

All of these are available online!

### Holiday Waste

Did you know we throw away 227,000 miles of wrapping paper every year, which is almost enough to paper our way to the moon?

Reduce your waste this holiday season with reusable bags for your gifts!

Or, better yet, opt for gifts that don't require any wrapping.

For example:

- Event tickets
- Gift cards
- Memberships/ Subscriptions

Save energy this holiday season by:

- Using LED energy-efficient lights for all décor purposes
- Limiting length of time the lights are on (use timers, candles, turn off lights when going to bed, etc.)
- Lowering your thermostat when possible
- Opting for gifts that are not electric and instead could come from the Sustainable Wish List above!

December 2021
