

The Recycler

Fall Edition Issue 5:
December 2016

TIS' THE SEASON TO BE

HOLID

Ditch the petroleum based plastic tree this year and instead opt for a live tree. Live trees are a renewable resource that improve air quality

HOLID

Wrap smart! Store bought glossy foil and metallic wrapping paper contain heavy metals that can't be recycled. Make your own

HOLID

Decorating with lights this year? Try using LED lighting for your indoor and outdoor displays. LED lights use up to 95% less energy than

HOLID

Get the family connected with nature by decorating a tree for the birds. Food sources are harder to find in the winter, so extend the

HOLID

Old technology isn't waste! Make sure you recycle old electronics properly after receiving new ones. Did you know BGSU recycles electronics? Visit
