

The Recycler

November 2023 Edition

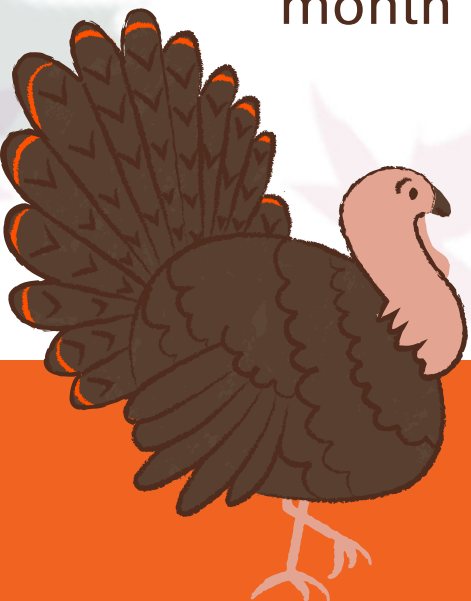

Fall Reminders to Reduce Your Carbon Footprint!

- Check tire pressure to save gas.
- Open your blinds and curtains during the day to help heat your room. Close them at night to keep the heat in!
- Keep your Thanksgiving leftovers! The average U.S. family loses \$1,866 per year on food waste.
- Keep your thermostat at or below 65 degrees to save energy!

Did you know?

The average annual carbon dioxide emissions per American is 16 metric tons! The global average is 4 metric tons, but in order to avoid global warming we need to get **below 2 metric tons per person by 2050.**

Try to lower your carbon footprint this month by eating less meat!
