Dear Future BGSU Student:

Thanks for your interest in the Academic Investment in Mathematics and Science (AIMS) program. The goal of the AIMS program is to encourage women and students of color to graduate from BGSU with majors in mathematics, computer and natural sciences. AIMS students have the unique opportunity to strengthen their academic skills and to increase their likelihood for academic success at BGSU. Also, they will develop professional and leadership skills required for advancement in mathematics and the sciences as future researchers and teachers (elementary, secondary and/or college level). AIMS awardees will minimally receive a \$1500 scholarship-- renewable for 3 years. For those who qualify other financial assistance may be available.

The Academic Investment in Mathematics and Science (AIMS) program requires study leading to a bachelor's degree in mathematics, computer and natural science fields or teacher education with majors in these areas. Students should plan to enroll in AIMS Seminar, course A&S 100.

Please complete all sections of the enclosed AIMS application. High school applicants and college transfer students must have a minimum GPA of 3.0 on a 4.0 scale. BGSU college students must have a minimum GPA of 2.85 to apply. Additionally, prospective students must complete an Undergraduate Application of Admission to Bowling Green State University (BGSU), and this application **must** be on file with the Office of Admissions before your AIMS application can be processed. You can obtain a BGSU application from the BGSU Office of Admissions or from the admissions website at [www.bgsu.edu/offices/admissions](http://www.bgsu.edu/offices/admissions).

All sections of the completed AIMS Award Application must be received in the AIMS office by March 1, 2007. Please indicate to your references (at least one from your teachers/counselor/principal, one of those must be from a math/science teacher) that recommendation letters should be sent directly to Dr. T. Carter Gilmer.

For more information about the AIMS program contact me at 419-372-0471 or by email at [cgilmer@bgnet.bgsu.edu](mailto:cgilmer@bgnet.bgsu.edu) or search <http://bgsu.edu/aims>

Thank you for your interest in BGSU and AIMS, and we look forward to receiving your application.

Sincerely,

A handwritten signature in black ink that reads "T. Carter Gilmer".
