Students who enter the degree program as freshman should complete this side of the check sheet in 6 semesters (3 yrs). The senior year is comprised of 13-months of full-time study which includes a clinical practicum. Students who transfer from another university or from another degree program may require more time in order to complete the pre-professional portion.

The Department Chair must give approval for a student to accept a position in a program other than the BGSU University – Based Program. The student can then register for the MEDT 4000 level courses to be conducted at the hospital – based program (See Hospital Based Requirements below).
