Design changes for the revamped PeopleSoft Account Summary Page within the Student Center have been finalized. The PeopleSoft project has been moved to CSSQNA where it will be tested by the staff from student financials. Portlet changes to reflect the new dynamic billing are in progress. Like the new PeopleSoft pages, the portlet modifications reflect a simpler design for ease of understanding. The project is still tracking to have the new development in production prior to July 1st, when the billing cycle changes to the first of the month.

Past Month’s Key Accomplishments
- Development: Interface revisions complete
- Development: Portlet revisions underway
- Testing: QNA testing underway

Upcoming Milestones
- Completion of User Acceptance Testing in QNA – May 19th
- Migration to PPD – May 22nd
