¹Social definition of poverty defines families more broadly to include the cohabiting partner's income and presence.

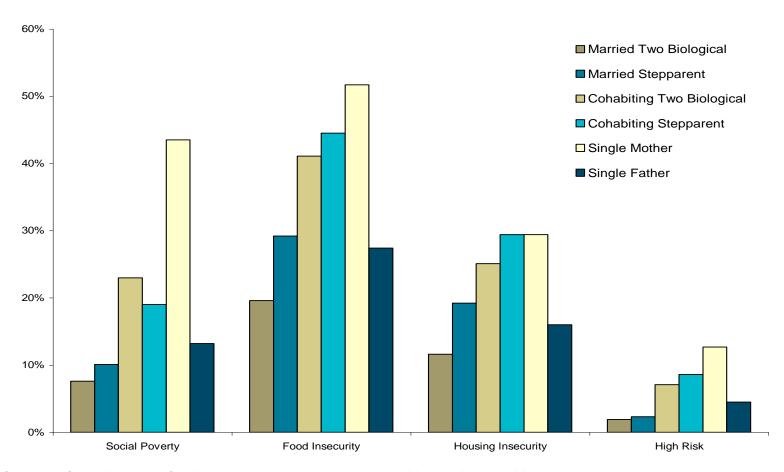

² Food Insecurity represents whether families had enough money to pay for food in the last 12 months determined by families experiencing one or more of three measures: worried food would run out, had run out of food, or had skipped a meal because of money.

³Housing Insecurity represents whether families were unable to pay mortgage, rent, or utility bills at any time during the last 12 months.

⁴High Risk represents the combination of the three prior measures. Children experiencing all conditions are classified as high risk.
