

Frequencies

```
PROC FREQ;
TABLES happy / missing;
RUN;
```

The FREQ Procedure

GENERAL HAPPINESS				
HAPPY	Frequency	Percent	Cumulative Frequency	Cumulative Percent
.	1396	50.49	1396	50.49
1	415	15.01	1811	65.50
2	784	28.35	2595	93.85
3	170	6.15	2765	100.00

In this example, we see that 1396 cases have missing values for the general happiness variable.

The percent column indicates simply the percentage of cases in each of the groups. In this example, 15.01% of the cases have a value of (1) very happy. This column includes only valid values.
