ASA Pre-Convention Workshops on Social Media

The American Sociological Association is offering a special series of workshops aimed at increasing knowledge of social media and strategies for using these tools in sociological work. The Pre-conference will take place on Friday, August 21. Workshop descriptions and registration instructions are at this link:

<http://www.asanet.org/AM2015/socialmedia.cfm>.

- *The Integrative Use of Social Media to Reach Publics*
- *Sociological Blogs on WordPress*
- *Facebook Groups and Pages for Research and Teaching*

National Symposium on Family Issues – Boys and Men in African American Families - October 26-27, 2015

The Symposium's goals are to showcase the current evidence base on family influences and family experiences of Black males within the larger context of U.S. social, economic and political structures and forces, and to provide a roadmap for interdisciplinary and translational research that advances knowledge, policy and practice—pertaining to a group that has been relatively neglected by family scholars. The symposium will take place at the Nittany Lion Inn, State College, PA. <http://www.pop.psu.edu/national-symposium-family-issues>.
