---

**Fund for the Advancement of the Discipline**

The American Sociological Association invites submissions for the Fund for the Advancement of the Discipline (FAD) awards. Supported by the ASA through a matching grant from the National Science Foundation, the goal of this project is to nurture the development of scientific knowledge by funding small, groundbreaking research initiatives and other important scientific research activities such as conferences. FAD awards provide scholars with "seed money" for innovative research that has the potential for challenging the discipline, stimulating new lines of research, and creating new networks of scientific collaboration. [View the FAD webpage for more information about the program and application process, and to view current and past award recipients](#).
