### **American Community Survey Workshop at University of Michigan – Applications due March 31**

The Social Science Data Analysis Network (SSDAN) at the University of Michigan is hosting the 2016 American Community Survey Workshop. This workshop is a faculty workshop in which participants are expected to develop learning modules with ACS data to enhance the classes they already teach. We are currently looking for individuals from a broad range of disciplines including, though not limited to: math, psychology, social work, nursing, sociology, and economics. The workshop will be held in Ann Arbor from **June 16-18**. Travel support and housing will be provided for out-of-town participants. [Link to application.](#)

---

### **Dyadic Data Analysis Workshop – July 25-28**

The Michigan State University Department of Psychology is sponsoring this 4-day workshop that will focus on analyses for data in which both members of a dyad are measured on the same set of variables. The course is designed for faculty and professionals as well as for advanced graduate students in the social sciences who are comfortable with data analysis software (i.e., SPSS, SAS) and the use of multiple regression. More information about the workshop and instructions on how to register are at this [link](#).

### **New Data Set: National Children's Study (Pilot)**

The [Professional Resource Library](#) (PRL) on the NCFR website houses more than 2,000 resources related to the family science discipline, including articles, research briefs, curricula, textbooks, websites, and more. New this week is the [National Children's Study Vanguard Data and Sample Archive](#), which currently makes available 2009-10 data – collected from more than 14,000 participants in 5,000 families – on environmental influences on child health and development.
