**CS/BS Course Map (with relevant degree requirements)**

This map shows the typical course sequences for CS/BS majors. The core CS courses requires a grade of C or higher to advance to the next course. The arrows indicate prerequisite(s) (solid arrows) or co-requisite(s) (dotted arrows).

GSWs and foreign language sequences (4 courses in same language) should be completed in early years. Either MATH1340(3) & 1350(3) or MATH1310(5) can be taken for Calc I. Either MATH2470(3) or both STAT2110(3) & 2120(3) can be taken. MATH electives can be chosen from MATH 2320, 3130, 3420. There are (4)+(4) or (5)+(5) credits natural science lab sequence courses. CS3900(3) is for full-time internships and CS3901(1-2) is for part-time internships. (Internships must be pre-approved to get credits for CS internship credits.)
