Nominee: Jackie Carson
Office: College of Business- Information Technology Services
Campus Address: 2005 A Business Administration
ID#: _____ Email: jcarso2@bgsu.edu

I believe that Jackie deserves the "Spirit of BGSU" award for numerous reasons. First, she cares about her employees. She makes a new schedule weekly to accommodate her student employee needs. Secondly, she cares about their safety and well-being. One the days we had mass amounts of snow, she called off her employees and supervised the labs herself. She did this in addition to the tasks of her every day position. Thirdly, Jackie also takes the time out of her busy schedule to help other faculty when in need. She is constantly assisting others through out the Business building, making sure everything is running smoothly. I believe that Jackie is a huge asset to BGSU. She goes above and beyond to help out her employees as well as others in need of assistance.

It is my pleasure to nominate Ms. Kim Strickland for Spirit of BG" Award. Ms. Strickland (who is full-time BGSU employee) demonstrated, for many years, exemplary service above and beyond the call of duty. She has been working with faculty, staff, and more importantly the students of BGSU with tremendous patient and professionalism; the work that she produces is reliable and accurate.

Over the years, the Dean, Associate Deans, Department chairs, faculty, staff, and students sought her help, and she almost never rejected any request for help. Consequently, she spent several working days every week working for more than ten hours a day to help everyone. Many times, I needed to stay late on campus, and I saw her trying to catch up with her work. Also, many times while I was working from home during the weekend, she was sending us emails and reports and solving our problems. Her professionalism in dealing with the Dean, Associate Deans, Department chairs, faculty, staff, and students is exemplary. She developed excellent relationships based on trust and mutual respect with fellow BGSU staff members in different functions in BGSU. These relationships and her deep understanding of the BGSU system allowed her to efficiently solve more problems than many other people.

In conclusion, I would like to thank and recognize Kim for her hard work and dedication and let her know that we appreciate her work. If you have any further questions, please contact via any of the channels listed below. Thanks.
