DIVISION 27—INFORMATION TECHNOLOGY SERVICES

FORMAT
1. Technical Specifications content and numbering system shall be based on CSI Master Format 2004 version.

BASIS OF DESIGN
1. BGSU Construction Standards shall not replace fully developed, project specific technical specifications. The Associate shall utilize the Standards as a minimum, to guide the design and execution in the field. Exceptions to these standards are allowed provided they are approved by Information Technology Services (ITS) department of the University.
2. BGSU ITS will provide Division 27 specifications, cable schedules, equipment schedules, connectivity schedules, print notes, and related technology CAD details.
3. All submitted substitute products shall be brought to the attention of Information Technology Services (ITS) prior to approval. Provide fully functional samples upon request.

RELATED SECTIONS
26 – ELECTRICAL

COORDINATION
1. To obtain the most recent updated design standards and specifications, please contact Wayne Colvin at the following location:

    106 Hayes Hall
    Bowling Green, OH 43403
    (419) 372 – 8843
    wcolvin@bgsu.edu

2. To obtain the most up to date technology prints for any university building please contact Kathrine Homan at the following location:

    106 Hayes Hall
    Bowling Green, OH 43403
    (419) 372 – 7410
    khoman@bgsu.edu
