Why a master’s degree in Mental Health or School Counseling?

The Master of Arts in Mental Health Counseling (MAMHC) and Master of Education in School Counseling (MESC) programs are excellent choices for anyone interested in becoming a licensed clinical or school counselor. Both are designed for individuals with a passion for listening and helping others, and who are preparing to enter the counseling profession with the knowledge and skills needed to succeed across a variety of career options.

Why MHC or SC at Bowling Green State University?

BGSU’s CACREP-accredited programs enjoy an outstanding reputation among counseling professionals. In fact, our students have over a 95% pass rate on the national counseling exam, and over 95% have found employment before graduating. In addition to this remarkable success rate, our program is flexible to meet individual needs with classes offered on campus, online and in hybrid format. Open enrollment allows students to start in the fall, spring or summer. Both programs may be completed on a full-time or part-time basis, and a dual program is offered that combines the MAMHC and MESC.

Learning outcomes

Graduates of the MHC and SC programs will have met the requirements for Licensed Professional Counselors in Ohio and nationally as a result of BGSU’s CACREP accreditation. As our high pass rate demonstrates, our students are fully prepared to take their licensing exams. They can expect to have the knowledge, skills and experience necessary to enter the workforce as ethical, dynamic and culturally competent counselors.

Professional opportunities

Mental Health Counselor — MHC graduates are well prepared to work in a variety of settings, including agencies, hospitals and private practice as clinical mental health providers diagnosing and treating mental and emotional disorders. This work can be reimbursed by insurance, and your degree can help you become licensed across the nation.

School Counselors — SC graduates can become licensed as K-12 school counselors, providing individual and group counseling services to students, while collaborating with teachers and family members to provide high quality care and working to promote mental health programming. School counselors work as part of the faculty to address achievement gaps and other critical concerns. This degree also allows for licensure portability across the nation.

Program strength and uniqueness

- Both programs may be completed on a full-time or part-time basis, with open enrollment in the fall, spring and summer.
- Emphasis is placed on personal growth, with in-depth self-awareness activities integrated into each course.
- Our program is historically among the strongest in Ohio for having students selected to present at professional conferences.
- Faculty get to know each student in order to place them at internship sites that will help them to achieve their individual goals.
- Students learn from professors who have been practitioners in their disciplines with a combined 40 years of field experience.
- CACREP accreditation means graduates of the program can obtain licensure outside of Ohio.
- All undergraduate degrees may apply.

"My educational experience at BGSU can be characterized as a paradigm shifting, self-actualization journey where I was academically challenged and stimulated by my cohort and professors. Not only did my program provide me the foundation to be a successful school counselor, but it gave me the tools to be a self-sufficient, change agent to advocate and develop my profession for the future."

— Jeff Williams, BGSU Graduate Research Assistant
School of Mental Health and School Counseling

Admission requirements
To gain regular status admission, applicants must have a minimum of a 2.70/4.0 undergraduate grade point average (GPA) or 3.0 in at least nine credit hours of graduate-level courses. Applicants with below a 2.70 may be considered for conditional admission status. Applicants are required to submit an official transcript from all colleges and universities attended. They are also required to submit official scores from the Graduate Record Examination (GRE)*.

All applicants must submit a letter of intent outlining their interests in graduate study and three (3) letters of recommendation. Applicants must also complete the School of Intervention Services Program Information Form, along with the "Good Moral Character" form. A personal essay is also required by the program.

International applicants are also required to submit scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

What is the cost of tuition?
Please refer to www.bgsu.edu/offices/bursar for the most recent information on tuition and fees.

Financial aid
A limited number of graduate assistantships and scholarships are available for full-time students who qualify. A graduate assistantship application must be submitted by March 1. For more information, please contact the department.

Domestic students enrolled in four (4) or more credit hours are eligible to apply for financial aid using the Free Application for Federal Student Aid (FAFSA) to calculate student contribution and financial need. You may apply online at www.fafsa.ed.gov.

How to apply
Visit the BGSU Graduate College website at www.bgsu.edu/graduate/admissions.

The application deadline is four weeks prior to the start of the term. Applications are reviewed on a rolling basis as soon as all supporting materials have been received.
