Preventive services help you stay healthy. A doctor isn’t someone to see only when you’re sick. Doctors also provide services that help prevent medical problems and help keep you healthy. Staying healthy can help you:

- Live a fuller life
- Save your hard-earned money

Your health plan now offers certain preventive service benefits at no cost to you. This means you don’t have to pay a copay* or coinsurance, even if you haven’t met your deductible. These no-cost benefits are part of the Affordable Care Act (ACA). They include:

- Medicine and supplements to prevent certain health conditions for adults, women and children
- Medicine and products for quitting smoking or chewing tobacco (tobacco cessation)
- Medicine used prior to screenings for certain health conditions in adults
- Vaccines and immunizations to prevent certain illnesses in infants, children and adults
- Contraceptives for women

CVS Caremark® works with your health plan to provide these benefits. The following lists† explain:

- Which medicines, supplements, health-related products or vaccines are covered
- Who they are covered for (such as children up to age six or adults age 65 or older)
- What health condition or illness they help prevent
- Other important information

**TIPS FOR USING THE LISTS**

- Take these lists with you each time you or your family has a checkup or yearly exam.
