PEER EDUCATION CLASS (HHS 4400)
Becoming a peer educator is a great way to get involved on campus, strengthen public speaking skills with presentations, and make new friends. It gives students the opportunity to learn from other students as well. A class is offered to those interested in peer education.

How to Become a Peer Educator:
After successfully completing HHS 4400 (a 2-credit hour class offered both Fall and Spring semesters), students may become peer educators.

While students are peer educators, they are required to attend a 1-hour meeting each week and complete a 1-hour office hour each week in the Wellness Connection.
