WS 680	Qualitative Research on Gender & Culture	T 2:30-5:30	Krane

Courses of Interest for WS Students

GERO 460: Mental Health and Aging.

An introduction into the prevention and treatment of late-life mental disorders. The focus is on the continuum of mental health needs, including promotion of optimal mental health as people age, prevention and early intervention in mental disorders, culturally responsive assessment of mental disorders, and effective

treatment of acute distress and severe mental illness. Although the course will discuss mental health in later adulthood because the majority of elders are women, I will give special attention to the mental health concerns of women in later adulthood.

COUN 676 Counseling the Culturally Diverse
