

Bowling Green State University
BG@100 Information Item
ESC Submission: April 23, 2007

Identification Information:

<i>Reference Number</i>	MOR-0002
<i>Functional Area</i>	Office of Admissions
<i>Title</i>	ACT test score loads

Background Information:

ACT has changed the way test scores will be reported to BGSU. The former test tapes will no longer be available for score reports. We are now required to receive scores through the ACT Internet Reporting Option.

Information Item:

The batch mainframe job must be revised to input a file from the Admission's CLIENT library rather than from the physical tape cartridge previously mailed from ACT to BGSU. This change assumes the Admissions technical staff, once notified by ACT via e-mail, moves the file from the ACT site to their CLIENT library. From that point, the revised batch job would process the test scores in exactly the same manner as currently defined.

The revisions for this batch job are needed as soon as possible since there are test score load data already being sent to BGSU with the new process. Admissions needs to be ready to process these scores as quickly as possible since there will be an increasing amount of test scores through June, corresponding to the Admissions applicant cycle.

Hour estimate to completion: 15 hours

Presented By:

Name	Project Role
Cecilia Castellano	Associate Director of Admissions
Carol Hague	Functional Lead, BG@100/Admissions Office
Rich Kasch	Technical Lead, BG@100
