

**Bowling Green State University**  
**BG@100 Information Item**  
**ESC Submission: June 28, 2007**

**Identification Information:**

<i>Reference Number</i>	MOR-0004
<i>Functional Area</i>	Registration and Records
<i>Title</i>	Electronic transcript exchange

**Background Information:**

In 2004 the Ohio Board of Regents legislated the "Transfer Assurance Guides" to aid students in the transferring of credit between state institutions. The first phase of TAGs, as they have come to be known, was complete in 2005. The second phase of TAGs includes an electronic exchange of transcripts between all the state institutions utilizing a central clearinghouse developed by OBR. OBR has mandated that all schools will use the state's Articulation Transfer Clearinghouse to transmit and receive transcripts by the end of 2007.

**Information Item:**

In order to comply with OBR's mandate to use the Articulation Transfer Clearinghouse (ATC), BGSU decided to build a tool that will formulate our transcript data in a form that can be sent to the ATC for submission to the target institution. A grant of \$32,800 was acquired from OBR to offset the cost of the development. The funding will be appropriately allocated to ITS and Registration and Records.

The Budget/Hours estimated to complete this project:

Software acquisition: \$ 3,996  
Systems Analysis: 150 hours \$7,500  
Programming: 150 hours \$7,500  
Testing: 60 hours \$2,400

The remaining estimated \$11,404 will be allocated to BG@100 to offset the cost of the PeopleSoft modification or other potential solution if needed to remain in compliance with this mandate.

This project is scheduled to be complete by November 21, 2007.
