

**Bowling Green State University**  
**BG@100 Information Item**  
**ESC Submission: November 3, 2008**

**Identification Information:**

<i>Reference Number</i>	CSS-0011
<i>Functional Area</i>	Financial Aid
<i>Title</i>	Removing SSN from Delivered PS/FA Reports

**Background Information:**

The university has implemented masking of SSN and DOB data in the PeopleSoft CSS system. Most financial aid reports are delivered including the National ID (SSN). To comply with the institution's direction of masking these items, the National ID needs to be removed from the reports that are to be executed by or distributed to departments outside SFA.

**Information Item:**

As testing and business process reengineering continues, reports may be identified that need to be included in this action item. Those reports can be appended to this document to create a comprehensive inventory of modified reports.

Currently, the delivered Crystal report - Fund Roster by Item Type (FA920) - needs to have the SSN removed from the report for distribution associated with the December go-live.

The need for this begins with the December Go-Live.
