

CFDR Update: January 19, 2007

PLEASE FEEL FREE TO CONTACT ANY CFDR STAFF WITH YOUR RESEARCH QUERIES

Workshop - Monday, January 22

Using the National Longitudinal Survey of Adolescent Health (Add Health)

Dr. Meredith Porter

Monday, January 22, 12 noon to 1:00 pm

Bowen-Thompson Student Union, Room 315

Speaker Series – Wednesday, January 24

Dr. Eric Dubow, Department of Psychology, BGSU

“The Cross-Generational Transmission of Aggression: Data from a 40-Year Longitudinal Study”

Wednesday, January 24, 12 noon to 1:00 pm

Bowen-Thompson Student Union, Room 315

Research Incentive Grant Deadline- Wednesday, January 31

Faculty Research Committee Research Incentive Grants are designed to reward and encourage the continuing efforts of faculty members who are attempting to obtain significant external grant support for their scholarly research activities. The deadline approaches!

Invitation to FACES Workshop

Research Connections is sponsoring a workshop on the use of the Head Start Family and Child Experiences Survey (FACES) data at the [2007 American Educational Research Association \(AERA\) Meeting](#), on Thursday, April 12, 8:00 am – 12:00 pm, in Chicago, IL. This seminar will provide an overview on the use of the FACES data, which is an ongoing series of longitudinal studies of Head Start program characteristics and child outcomes, using nationally representative samples of Head Start programs, children, and families. The datasets are well-suited for examining relationships between early care arrangements and educational program characteristics and measures of children’s cognitive development and social behavior during Head Start and in the initial years of elementary school. Instruction will focus on the study design and instruments used in the 1997 and 2000 cohorts, as well as potential research questions and opportunities for further analysis. The registration deadline to attend both the meeting and the workshop is March 2, 2007.

Need some data?

If you have a research question that you would like to explore but are unsure of the data you might use, please contact us. Seriously, don't stress out about it. Our staff can assist you in obtaining data, questionnaires, code books, etc. All you have to do is ask.
