# BRINGING KATRINA INTO THE CURRICULUM:

TEACHING ENVIRONMENTAL DEMOGRAPHY TO THE 21ST CENTURY UNDERGRADUATE

New Orleans offers a unique and demographically appropriate location for a teaching workshop on environmental demography and the undergraduate curriculum. You are cordially invited to participate in this teaching workshop at the Population Association of America's Annual Meetings in New Orleans. This workshop is organized and sponsored by the graduate students of Bowling Green State University's Department of Sociology and Center for Family and Demographic Research. Please let us know if you are able to participate in this exceptional opportunity by April 1.
