All interior design core courses offered through the interior design program must be completed for a letter grade requirement. Faculty strongly encourage interior design majors to complete a work co-op as this greatly improves employment opportunities upon graduation. Completion of all coursework on this checklist results in fewer than 122 hours. A minor is not required; however, students should choose to complete their electives by selecting courses which reinforce their major. ID students may also choose a minor to complete the minimum hours required for graduation. See University catalog for possible minors on the web at www.bgsu.edu/catalog/minors.html.
