

Did You Know?

In 2012, BGSU reduced its GHG Emissions by 135 Metric Tons of CO₂, which is equivalent to 27 cars off the road, or the energy consumption of 12 households.

In 2012, 605 schools competed in RecycleMania and 148,897 metric tons of CO₂ were reduced.

Last year Kohl Hall won the residence hall competition. Make sure you help your dorm reduce its waste and win prizes!

The Recycler

Spring Edition Issue 2: February 2013

RecycleMania

RecycleMania is a friendly competition among college and university recycling programs in North America. On campus, residence halls compete with each other for prizes to the winning halls. The competition runs from February 3 to March 30.

Like "BGSU Sustainability" on Facebook for a daily recycling tip during the RecycleMania competition!

For more information go to: www.recyclemania.org

BGSU will be competing in the Competition Division for the first time this year against some of the country's biggest schools. This means that we will not only be trying to increase recycling, but also decrease waste.

How Can You Help?

- Recycle all paper, plastic, cardboard, aluminum, and glass! If you get caught "green-handed" you will get entered into a raffle to win a gift card!
- As well as recycling, it is important to reduce waste. Keep this in mind, especially when buying new items or food.
- Encourage your residence hall to recycle and reduce its waste as much as possible.

Brought to you by the Office of Campus Sustainability

BGSU.
