

The Recycler

A New Year... A More Sustainable You in 2024

Sustainability means "meeting the needs of the present without compromising the ability of future generations to meet their own needs."

Sustainable Headlines in 2023!

- White Rhino Population in Africa Increases for First Time Since 2012.
- England Bans Single-use Plastic Such as Plastic Utensils, Polystyrene Cups, and Take-Out Food Containers.
- Deforestation in the Amazon Rainforest Decreased by 22%.
- Virgin Atlantic Airways Makes First Transatlantic Flight Using Sustainable Jet Fuel.

Being Sustainable in 2024!

- Keep Heating Temperatures Low Throughout the Winter and Bundle Up Instead.
- Use LED Bulbs and Turn Off Lights When Not in Use.
- Electronics Turned Off but Plugged In Still Draw Electricity.
- Take Shorter Showers! Every Minute Uses Over 2 Gallons of Water.

When Recycling, Remember to Always Follow BGSU Signage and Reference bgsu.edu/campus-sustainability/recycling-waste-reduction/bgsu-recycling for More Information.

Sustainable Events for Sustainable Students

The Campus
reStore
at BGSU

January 24th
(12-2 PM)

Begins
January 28th

Every Friday Night
(6:30 PM)
