Master Priority List of University Projects

Priority ASAP – critical projects - must meet the due date

Priority 1 – High Priority – must do what we can to meet this date but not at the expense of ASAP

Priority 2 – Medium Priority – if the due date slips to meet higher priorities - that is OK

Process for moving a project from one priority to another - up or down – Any member of the Executive Sponsors may raise the question as the priority of any project and recommend that the project be re-evaluated or any other priority. A vote of the members present will determine the priority

Portfolio - This is the group of individuals responsible for delivering the project. This helps show how many projects are in one group’s portfolio.
