

# **CSS/PeopleTools 8.54 Upgrade**

Version 8.53 to Version 8.54  
Scope Document

Date: 2/12/16

---

## Scope Introduction

### Summary

BGSU has invested in Oracle's PeopleSoft suite of applications as the University's ERP (enterprise resource planning) system. Applications included in our ERP suite include:

**CSS** – Campus Solutions is a suite of software specifically designed as a higher education student administration system. We are currently operating at version 9.0 of CSS, which is Oracle's latest release of this application.

**HCM** – Formerly called HRMS, the Human Capital Management application administers the University's Human Resources, Benefits, Payroll, and Time & Labor. We are currently operating at version 9.0 of HCM. The latest release is version 9.2.

**FMS** – The Financial Management System (FMS) includes areas such as the general ledger and commitment control, purchasing, accounts payable, accounts receivable and billing, grants and projects, and asset management. We are currently at version 9.1 with the latest vendor release being 9.2.

Oracle has provided end of support dates for Extended Support for the PeopleSoft suite of applications as shown in the below table. In answer to these end of support dates, BGSU leadership has developed a PeopleSoft Application Road Map for the CSS, HCM, and FMS applications that ensures the University remains supported under Oracle through 2018.

| <b>Release</b> | <b>Extended Support Ends</b> |
|----------------|------------------------------|
| CSS 9.0        | December 2018                |
| CSS / HCM 9.0  | June 2015                    |
| HCM 9.0        | June 2015                    |
| HCM 9.1        | September 2017               |
| FMS 9.1        | November 2017                |

### PeopleSoft Road Map

The PeopleSoft Road Map consists of three phases. Each of these phases will be considered a separate project; however there are interdependencies between the projects.

#### **Phase 1 – CSS / HCM Split**

To address the June 2015 end of support date for HCM, BGSU must upgrade the HCM application. In order to perform this upgrade, a split of the CSS/HCM environment and database was required since the CSS and HCM applications shared the same Oracle

11.2.0.3 database. The split was required to take place first because Oracle does not support moving to HCM 9.1 or 9.2 while the database is being shared. This project included moving the environments from a shared set of physical servers to separate Virtual Machines (VM's). This phase of the Road Map took place from January 2014 – July 2014, with a go-live date of July 19, 2014.

### **Phase 2 – HCM Upgrade**

Once the CSS/HCM databases were split into separate databases, BGSU was able to begin the project to immediately upgrade HCM from 9.0 to 9.2. This phase of the Road Map took place from August, 2014 – July, 2015, with a Go-Live date of May 22, 2015.

### **Phase 3 - FMS Upgrade**

FMS will be upgraded as the final phase of the PeopleSoft Road Map. It is our goal to complete the upgrade to FMS 9.2 by December 2015. However, before the upgrade can take place, FMS PeopleTools must be upgraded to PT 8.54. This phase is expected to run from October, 2015 – February, 2016 with a Go-Live date of February 26 - 28, 2016. In addition, PeopleTools 8.53 will be desupported in July 2016.

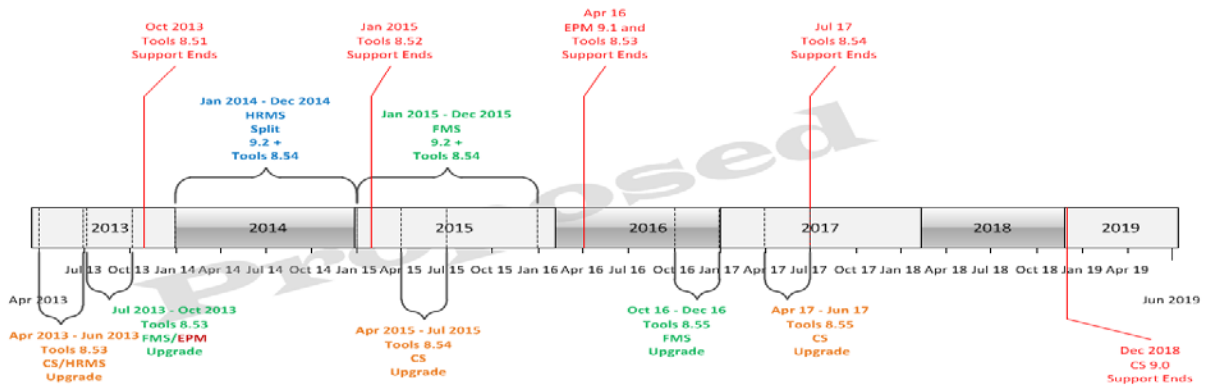

In order to remain supported by Oracle, our PeopleSoft applications must be upgraded to the latest PeopleTools version. FMS and CSS PeopleTools must be upgraded to PT 8.54. The FMS phase is expected to run from October, 2015 – February, 2016 with a Go-Live date of February 26 - 28, 2016. The CSS phase is expected to run from January, 2016 – to June, 2016 with a Go-Live date of June 10, 2016.

### **PeopleSoft Application Road Map/Full House Timeline**

The chart found below illustrates the proposed PeopleSoft Application Road Map timeline.

(A)

Peoplesoft Upgrade Timeline  
For CSS/FMS/HRMS  
Bring to current level

HRMS needs to be first, because HRMS 9.0 support ends June 2015.

Updated 1/23/2013

Major Application System Upgrades every ~3 years.  
Tools Upgrades occur every 12 to 18 months.  
Giving 6 to 12 months after releases to stabilize.

## CSS PeopleTools 8.54 Upgrade

This scope document will focus on the Phase 3 activities associated with the CSS PeopleTools Upgrade from 8.53 to 8.54. The current CSS footprint at BGSU includes the following modules:

- Undergraduate and Graduate Admissions
- Student Records
- Student Financials
- Student Financial Aid
- Campus Community
- Residence Life
- Touchpoints to the Controller's Office
- Touchpoints to Business Operations
- Touchpoints to Time and Labor
- Touchpoints to Human Resources

While some customizations have been added to the environment, core processes are used as delivered by PeopleSoft. It will be critical, however, to include all interfaces to CSS as part of the testing package for this upgrade.

Bundle and regulatory applications will be applied as needed; these will include, but are not limited to:

- Traditional CSS PeopleTools 8.54 Upgrade
- No new delivered functionality will be installed or turned on

- Unless deemed necessary, Maintenance Bundle 41 will not be installed until after the CSS PeopleTools upgrade
- New CSS development with go-live dates during or shortly after the CSS PeopleTools upgrade will be evaluated on a case by case basis to determine:
  - Testing strategies
  - Implementation dates
- Install PeopleTools 8.54 branding and custom login screen

**Scope Planning**

Initial planning for the PeopleTools Upgrades began with the creation of a project charter/scoping document in September, 2015. As a result of this scoping session, the team identified the need for upgrading CSS PeopleTools to the current version without applying any previous versions of maintenance packages.

The planning team and subject matter experts for this PeopleTools upgrade include:

| Name             | Department               |
|------------------|--------------------------|
| Sue Lau          | Registrar                |
| Becky Cogswell   | Registrar                |
| Jason Dunn       | Human Resources          |
| Rhonda Dicke     | Time and Labor / Payroll |
| Amy Beltano      | Controller's Office      |
| Michelle Schmitz | Student Employment       |
| John Eggenton    | Student Financial Aid    |
| Justin Hartigan  | Student Financial Aid    |
| Adaeze Ochieze   | Graduate Admissions      |
| Erin Heilmeier   | Undergraduate Admissions |
| Dustin Sabo      | Undergraduate Admissions |
| Teresa Coss      | Business Operations      |
| Jeff Mangette    | Registrar                |
| Rhonda Montague  | Bursar's Office          |
| Leann Peiffer    | Bursar's Office          |
| Brenda Holderman | Bursar's Office          |
| Saundra Smith    | Residence Life           |
| Sue Tomor        | ITS                      |
| Casey Meyer      | ITS                      |
| David Hayes      | ITS                      |
| Mike Failor      | ITS                      |
| Todd Glick       | ITS                      |
| Carol Christman  | ITS                      |
| Meg Shiple       | ITS                      |
| Susan Shammo     | ITS                      |
| Rick Williamson  | ITS                      |
| Mark Heider      | ITS                      |

|               |     |
|---------------|-----|
| Nick Savich   | ITS |
| David Hoops   | ITS |
| David Weimer  | ITS |
| Sheri Kellogg | ITS |
| Phyllis Short | ITS |
| Rich Kasch    | ITS |

## ***Project Assumptions***

The following assumptions were made while developing the scope:

1. Functional leads will need to be assigned for each functional area impacted by the CSS PeopleTools upgrade.
2. Functional areas will be required to actively participate in the testing phases of this project. This means that resources will need to be available to ensure thorough testing in each area.
3. Business processes changes may need to occur in order to obtain the benefits of some business transformation.

## ***Project Deliverables***

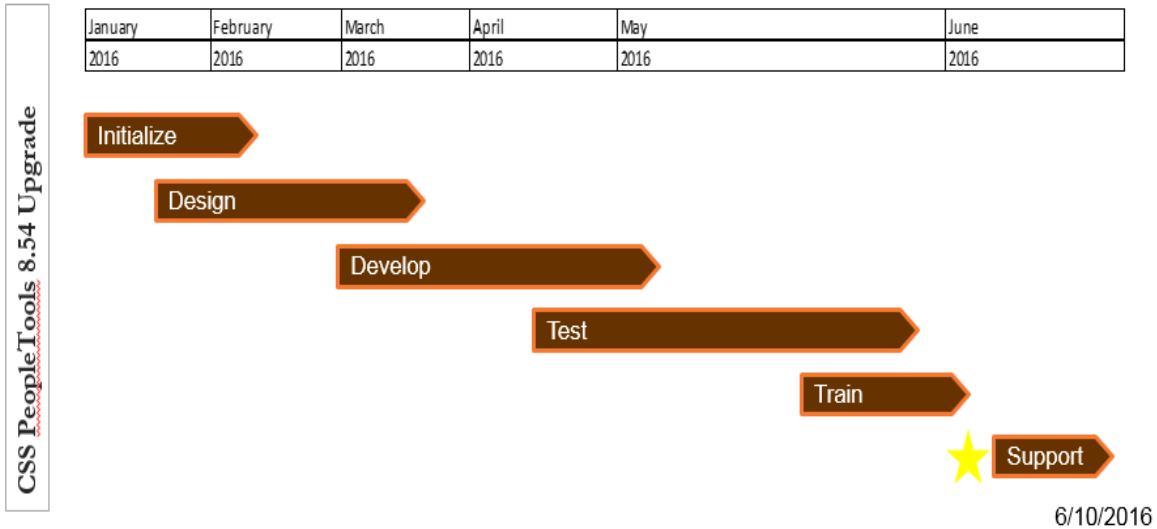

1. CSS PeopleTools application upgrade from version 8.53 to version 8.54.
2. Security changes, as needed, to support the new environment.
3. Infrastructure upgrade/build to support the 8.54 upgrade.
4. Applications as noted above in the Scope section
5. Documented core business process testing plans.
6. Business process transformation, as needed.
7. Communications plan for relaying project information to Executive Sponsors, Steering Committee members, Functional Areas, and the entire campus as needed.

## ***Proposed Project Timeline***

The CSS PeopleTools Upgrade to 8.54 will take approximately 5 months depending upon the scope and number of resources available to the project. There is an Oracle end of support date of June 2016 that must be taken into consideration when planning the project schedule.

The proposed project timeline for the FMS PeopleTools Upgrade is to go live in June, 2016.

# Delivery Timeline

## Project Planning

## Specific Exclusion from Scope

This project focuses on the PeopleSoft CSS application only. It does not include upgrades to the FMS or HCM applications. In addition, there will be no maintenance packages applied to CSS during the PeopleTools 8.54 Upgrade project; these will be applied during the CSS 9.2 Upgrade project.

However, the following guidelines need to be considered during the planning and implementation of CSS PeopleTools 8.54:

- No new delivered functionality will be installed or turned on
- Unless deemed necessary, Maintenance Bundle 41 will not be installed until after the CSS PeopleTools upgrade
- New CSS development with go-live dates during or shortly after the CSS PeopleTools upgrade will be evaluated on a case by case basis to determine:
  - Testing strategies
  - Implementation dates

## Project Governance Structure

A Steering Committee will provide oversight and direction for this project. The team will include the following:

| Name               | Department                                     |
|--------------------|--|
| Sharon Swartz      | Controller, Office of the Controller           |
| Viva McCarver      | Chief Human Resources Officer, Human Resources |
| Brad Leigh         | Executive Director, Business Operations        |
| Cecilia Castellano | Vice Provost, Strategic Enrollment Planning    |
| John Fischer       | Vice Provost, Academic Affairs                 |
| Beth Ann Rife      | HRIS Manager, Human Resources                  |
| Dawn Chong         | Director, Student Employment Services          |
| Chris Cox          | University Registrar, Registrar's Office       |
| Matt Haschak       | Director, IT Security & Infrastructure         |

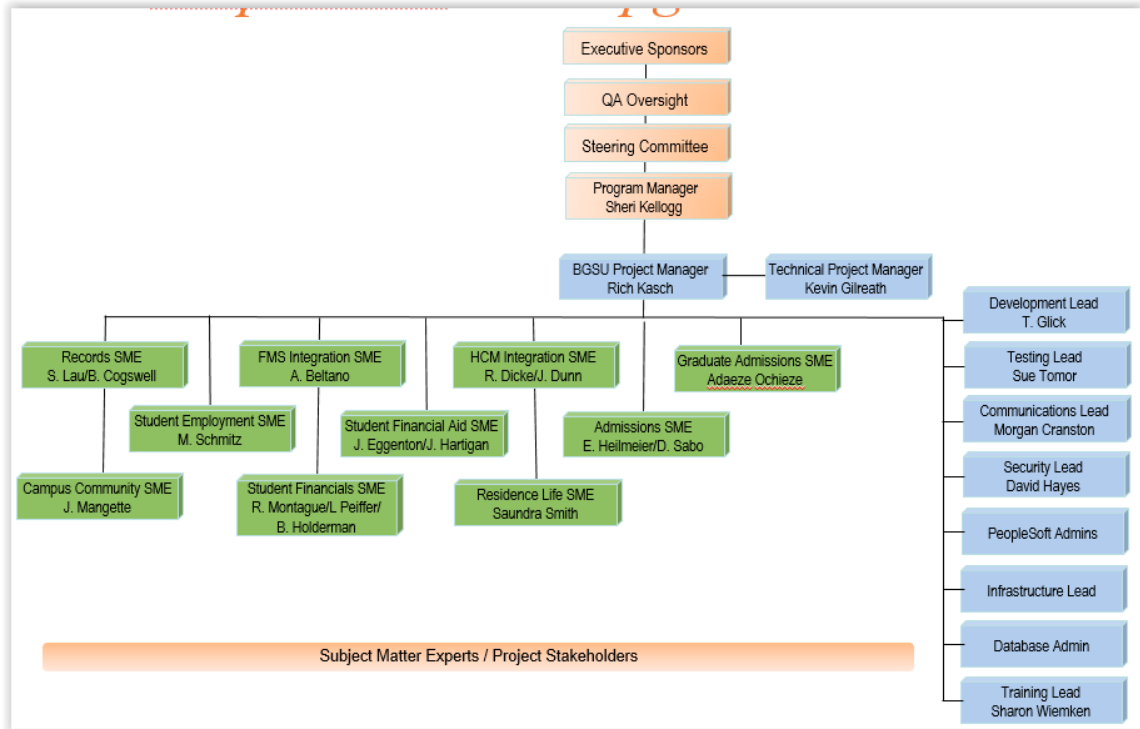

|                   |  |
|-------------------|--|
| Sandy Heck        | Associate Directory, HR and Benefits                 |
| Chasity McCartney | Bursar, Bursar's Office                              |
| Bob Swanson       | Associate Controller, Controller's Office            |
| Adrea Spoon       | Director of Admissions, Admissions Office            |
| Andy Grant        | Director, Business Operations                        |
| Betsy Johnson     | Director, Student Financial Aid                      |
| Keith Ramsdell    | Director of Graduate Enrollment, Graduate College    |
| Sarah Waters      | Director of Residence Life, Office of Residence Life |
| Phyllis Short     | ITS  |
| Sheri Kellogg     | ITS  |

As part of this project, BGSU has retained the consulting services of Navigation consultants to help us execute our PeopleSoft Application Road Map. We are looking to Navigation consultants to deliver key technical expertise relating to the CSS PeopleTools Upgrade as well as technical Project Management, and functional consulting services.

The goal of this project is to establish joint leadership of the project between ITS and the University's Business offices through the involvement of a Business Project Manager. The Business Project Manager will participate in regular project status meetings and help make business decisions, discuss issues, and provide feedback on the project.

The resources involved in this project will include a dedicated project team that is augmented with several part-time roles. Substantial functional unit and business process testing will be required by the core business areas in order to ensure overall project success. The functional leads will be identified early in the project.

The overall Project Governance Structure is:

## Project Issues/Concerns/Risks

The following issues, concerns and risks have been identified for the CSS version 8.53 to version 8.54 PeopleTools Upgrade project.

1. This project has University-wide impact and any issues could affect numerous functional areas and business processes.
2. Sufficient business area resources will need to be allocated to work on this project and conduct functional area testing within the project timeframe.
3. The University community must be well informed about the project and any business process changes that could result from the upgrade.
4. Training may need to be conducted for any business process changes.
5. There may be a need to apply patches/fixes to production and project environments during the project.
6. Security could be impacted and will need to be addressed as part of the upgrade.

## Other Business Areas Affected

This project will affect all Colleges, Departments, Faculty, Staff, Students, and any other related entities that use the University's PeopleSoft's CSS application for Student services.

## Project Resource Requirements

| Module               | Role                     | Resource                  | Commitment |
|----------------------|--------------------------|---------------------------|------------|
| Project Management   |                          |                           |            |
|                      | Project Director         | Sheri Kellogg             |            |
|                      | Project Manager          | Rich Kasch                |            |
|                      | Business Project Manager | Adrea Spoon               |            |
|                      | Business Project Manager | Betsy Johnson             |            |
|                      | Business Project Manager | Chris Cox                 |            |
|                      | Business Project Manager | Keith Ramsdell            |            |
|                      | Business Project Manager | Beth Ann Rife             |            |
|                      | Business Project Manager | Sandy Heck                |            |
|                      | Business Project Manager | Dawn Chong                |            |
|                      | Business Project Manager | Chasity McCartney         |            |
|                      | Business Project Manager | Sarah Waters              |            |
| Core Human Resources |                          |                           |            |
|                      | Functional Lead          | Beth Ann Rife, Jason Dunn |            |
|                      | ITS Lead                 | Mike Failor               |            |
| Time and Labor       |                          |                           |            |
|                      | Functional Lead          | Rhonda Dicke              |            |
|                      | ITS Lead                 | Mike Failor               |            |
| Payroll              |                          |                           |            |
|                      | Functional Lead          | Rhonda Dicke              |            |
|                      | ITS Lead                 | Mike Failor               |            |
