*Nasir Butt was not present to provide an update regarding the Ohio Attorney General's Sexual Assault Kit Tracking System Advisory Committee.*

*Treasurer Wissinger reported that he established a PayPal account, so that dues, course fees and other charges, could be paid online via credit card or bank account transfers. Chad indicated that he has already tested it and it is working as advertised. Additionally, he has purchased a bluetooth credit card reader, which can link with a cell phone, allowing transactions to be completed in person.*

*Angela Farrington stated an ANAB ISO/IEC 17025-2017 Assessor Training Course is scheduled for August 27-30, 2019, at the Fire Academy, Reynoldsburg, Ohio. Tuition is \$1,000 per student, with a maximum class size of 24 students. The school runs 8am – 5pm, Tuesday thru Thursday and 8 am – 10:30am on Friday. Angela plans on reserving a block of rooms at the Fairfield Inn, Reynoldsburg. She also advised, that an eight hour online session must be completed, prior to attending this class.*

*New Business:*

*Nasir Butt was not present to report on an ethics commission ruling prohibiting ANAB from directly reimbursing Cuyahoga County employees for travel expenses, regarding offsite inspections of another forensic facility. Chad Wissinger indicated that Cuyahoga County now has the employee go through the normal travel approval process. Hence, the County will pay the employee's travel expenses and seek reimbursement from ANAB. This way the employee is not directly reimbursed by ANAB.*

*Angela Farrington and Bob Budgake advised the membership that Board action was taken in late January, to allow the FSIO Treasurer to set up a pass thru account to receive tuition payments regarding the before mentioned ANAB Assessor Training course and pay ANAB for their services. The Board was asked by Angela to approve this prior to our regular March meeting, so that she could reserve the August time slot.*

*Mike Trimpe expressed a concern regarding an upcoming ANAB assessment. Mike indicated that some of their disciplines i.e. explosive residue, soil and wood identification, may not be able to receive accreditation, because they are not doing enough cases. One solution might be having assigned Ohio labs perform all the cases for a low volume discipline. Therefore maintaining accreditation and the body of knowledge in our state.*
