

BG PERSPECTIVE: 21st century liberal studies

The BG Perspective general education curriculum provides a liberal studies foundation, preparing BGSU students for self-reliant learning throughout life and effective participation in a democratic society. BG Perspective classes, taken by all students at BGSU, reflect a deep conviction by the BGSU learning community and leaders in all professions that successful, satisfying lives require a wide range of skills and knowledge. Ethical integrity, reflective thinking, and social responsibility are characteristics of a liberally educated person. Through active learning experiences, the BG Perspective curriculum provides students with a solid foundation in both vital intellectual skills and breadth of knowledge to be successful in their major areas of study and later, in their chosen professions. These intellectual skills include the ability to think critically and communicate effectively; the ability to understand different cultures and modes of thought; and the ability to investigate forces that shape the social, artistic, scientific, and technological complexities of our contemporary culture and society.
