214-215-3650

BIO: Dr. Zeng is an associate professor at the department of economics and the graduate program coordinator of the MA program in Financial Economics. Her primary research focus is on macroeconomics, applied macroeconomics, and time series econometrics. She is actively working on a series of theoretical and empirical research projects investigating the linear and nonlinear interactions among credit market frictions, time-variant uncertainty and monetary economic fluctuations. Her other projects focus on inflation expectations and central banking.

AREAS OF EXPERTISE

- Macroeconomics
- Applied Macroeconomics
- Monetary Economics
- Time Series Econometrics

RESEARCH INTERESTS

- Dynamic Stochastic General Equilibrium Models
- Credit frictions and Business cycle fluctuations
- Monetary policy making
- Risk shocks and bank behaviors
- Time-series modeling and analysis

CONSULTING PROJECTS

- Predictive modeling and business forecasting
- Time-series modeling and analysis of sales data
- Modeling and analysis of manufacturing process data
