Did You Know?

Organic Lawn Care

- Keep grass longer! 3 inch grass will help retain water.
- Use compost and natural materials for fertilizer. Leave grass clippings.
- Apply cornmeal to prevent weeds.

3 million tons of inorganic fertilizer is used in the US each year, creating harmful runoff.

No Space for Gardening?

Try vertical gardening or pot gardening! Vertical gardening can use pots or wooden boxes along a fence or wall. Pots can be on a balcony, porch, window sill, etc. Try herbs, tomatoes, beans, peas, cucumbers, leafy greens, and more!
