GO GREEN AT THE GROCERY
BYOB (BRING YOUR OWN BAGS)
Only 1% of plastic bags worldwide get recycled. Many end up in the ocean.

KEEP IT LOCAL
Most produce comes from over 1,500 miles away and can be a week old by the time it reaches you.

CHOOSE ORGANIC
Certified organic food labels work to protect the ecosystem, worker’s rights, and your health.

BOYCOTT THE BOTTLE
Avoid purchasing bottled water and other single use disposable items. Over 1.14 billion plastic water bottles are purchased each year, and only 1% of them are recycled.
