ELECTIVES (If needed to reach 122 hours)

Students who enter the degree program as freshman can complete this curriculum in 8 semesters, plus one summer term between the junior and senior year. The senior year is thus comprised of 12 months of full-time study which includes a clinical practicum.

Students transferring from another university or from another degree program and/or requiring developmental math may require more time in order to complete the prerequisite "required courses" portion.

Students transferring into this program from another school who have earned previous credit in basic medical laboratory science courses not listed on this checksheet, including MLS 2220 and MLS 2510, should consult with the department.

The Department Chair must give approval for a student to accept a position in a program other than the BGSU University – Based Program. The student can then register for the MLS 4000 level courses to be conducted at the hospital-based program (See Hospital Based Requirements below).

Application for professional portion (end of Junior year) date applied:
_____ to Department Chair.

Admission: _____ Conditional Admission: _____

Alternate Admission: _____ Not admitted: _____

GPA after Junior Year must be 2.5 to apply for Clinical Laboratory Studies.
