

Minor in Entrepreneurship (eShip)

The Entrepreneurship Minor is designed for both business and non-business students and is available to all majors at the university

17 Credit Hours Required:

Do you have an idea? Would you like to develop a new product or service? Does starting a company interest you? Are you interested in working for an organization that values innovative ideas? BGSU's ESHP Minor offers a firm foundation in entrepreneurial thinking and doing. Your entrepreneurial educational journey will include introductory, core, venture creation, intrapreneurial and capstone courses all designed to teach that fundamentals of entrepreneurship.

Entrepreneurship Minor at BGSU

The mission of the entrepreneurship minor program is to cultivate the entrepreneurship spirit in our students by nurturing their vision and passion.

Executing the mission requires courses that teach students how to ideate, recognize opportunity, develop products or services and create value for the customer. As well as, courses that explore innovation in established companies that need to develop new products or services to increase revenue and market share for the firm.

The objective of the ESHP program is to immerse students in entrepreneurship by using a combination of fifteen-week and seven-week classes that expose students to all types of entrepreneurial ventures; for-profit, social, non-profit, and corporate (intrapreneurship).

The ESHP minor is open to all students on campus and is designed to teach students practical business applications, critical thinking and problem solving which align with the core values of BGSU.

Learning Outcomes

Students completing the Entrepreneurship Minor will learn how to:

- Become innovative and creative thinkers who will recognize entrepreneurial opportunities.
- Identify new and underserved markets for products and services.
- Learn how to create value for customers through marketing research and customer discovery.
- Learn how to create a start-up venture.
- Develop business plans.
- Learn how to effectively market entrepreneurial products.
- Comprehend how important ethics are in venture creation.
- Understand the significance of intrapreneurs in corporations.
- Create and deliver oral and written presentations.
- Communicate effectively with the customers, investors, community members and others who will support the entrepreneurial venture or intrapreneurial project.
