

Effective Teaching Practices

We know that time with students in class is sometimes our only opportunity to make a difference. ACUE’s course in Effective Teaching Practices ensures that faculty learn about—and implement—the approaches that improve engagement and persistence and promote deeper learning.

This 25-module course concentrates on teaching practices effective in face-to-face instruction. Delivered in collaboration with institutional partners, *Effective Teaching Practices*, prepares faculty to implement evidence-based teaching practices shown to improve student outcomes and support equity goals.

In this course, faculty will learn about-and implement evidence-based teaching practices that align with the five major areas of practice outlined in ACUE's Effective Practice Framework.

- Designing an Effective Course
- Establishing a Productive Learning Environment
- Using Active Learning Strategies
- Promoting Higher Order Thinking
- Assessing to Inform Instruction and Promote

Faculty who complete all modules earn the full ACUE Certificate in Effective College Instruction, endorsed by the American Council on Education (ACE).
