

# National Survey of Family Growth 2006-2008 Continuous Cycle

## Religion & Spirituality

### Variable Notes

**1** The NSFG discovered an error in the construction of the variable RELTRAD in the 2006-2008 public use data files. The frequencies represented in this snapshot *are the corrected frequencies* . Updated files have been created to be used in conjunction with the original data files. These files are available on the NSFG website under the heading *Downloadable Data Files* at:

[http://www.cdc.gov/NCHS/nsfg/nsfg\\_2006\\_2008\\_puf.htm](http://www.cdc.gov/NCHS/nsfg/nsfg_2006_2008_puf.htm)

For more detailed information please see:

[Revised Religion Variable, religious affiliations by Protestant denominations \[PDF\]](#)

<http://www.cdc.gov/nchs/data/nsfg/2006%20RELTRAD%20Correction.pdf>

**2** This question was asked in the questionnaire, but an exact corresponding variable (and subsequent unweighted frequencies) is unavailable in the public-use data file.

Information from this question was used to generate constructed variables on religion.

**3** Multiple variables are associated with this one question. To conserve space, only unweighted frequencies for the numerically first variable are shown in this measures snapshot.

**4** A female pregnancy file was also compiled, consisting of one record per pregnancy for all female respondents having experienced pregnancy.
