National Survey of Reproductive and Contraceptive Knowledge

Data from the National Survey of Reproductive and Contraceptive Knowledge are now publically available. The survey was conducted by the Guttmacher Institute and was designed to explore understudied factors such as knowledge, attitudes, and beliefs about contraception that influence the ability of young adults to use contraception. More information about the survey, [including the questionnaire](#), [a report with initial descriptive analyses from the survey](#), [supplemental tables](#), and [survey methodology](#) is provided on [The National Campaign's Fog Zone website](#).
