---

### Call for Papers: Conference on the National Survey of Family Growth

The National Center for Health Statistics (NCHS) announces the 2012 Research Conference on the NSFG and has issued a Call for Papers. The Conference will be held October 17-18 in Hyattsville, Maryland. See the [NSFG Research Conferences](#) webpage or the [Call for Papers](#) for details.

---

### Help Save the National Longitudinal Surveys

The National Longitudinal Surveys ([NLS](#)) program faces the biggest threat in its 47-year history as a result of reductions in the 2012 and 2013 Bureau of Labor Statistics ([BLS](#)) budgets. The cuts will cripple our ability to collect and disseminate data from April 2012 onward. More about the crisis and how you can help support the NLS at this link: <http://www.chrr.osu.edu/>.

### Population Working Papers Website

The CFDR is collaborating with the California Center for Population Research on the Population Working Papers initiative. We have posted CFDR working papers from 2008 to 2012 on the [Population Working Papers](#) site that is hosted by CCPR at the University of California Los Angeles. The collection currently includes working papers from population researchers at Duke, Princeton, Penn State, and University of Maryland.
