

CFDR Update: January 19, 2018

Call for Papers: Time Use Across the Lifecourse – Submissions due February 9

Conference on Time Use Across the Lifecourse, June 19-20 2018, University of Maryland College Park
Researchers are invited to submit abstracts for papers that address the collection or analysis of time use data on topics ranging from intergenerational caregiving and time transfers, policy & environmental influences on time use, time use & health, time use & inequality. Abstracts should be submitted by email to: timeuse-2018@umd.edu. Additional information about the conference can be found at [Time Use Across the Lifecourse Conference](#).

Optimal Aging Grants – Submissions due February 13

BGSU's Optimal Aging Institute is now accepting applications for its spring internal grants cycle. Small grants (up to \$5,000) are available for innovative and/or collaborative research, educational programs, or community engagement projects focused on helping individuals age optimally. All bargaining unit faculty members, faculty administrators, and administrative staff are eligible to apply; graduate students are not eligible for these awards. Deadline for applications is noon on Tuesday, Feb. 13. Please contact Dr. Nancy Orel, Exec. Director of Research for the Optimal Aging Institute, if you have questions or would like to apply: norel@bgsu.edu. Application guidelines can be [downloaded here](#).

PRB U.S. Policy Communication Training – Applications due February 16

The Population Reference Bureau (PRB) has announced the 2018-2019 U.S. Policy Communication Training Program and is accepting applications for the 2018-2019 cohort. For more information, please see [their announcement](#) for eligibility criteria and instructions on how to apply.

Affiliates and Students: Acknowledgment Statement Required for Manuscripts and Presentations

Affiliates and students at NICHD-funded population centers are required to acknowledge population infrastructure support in all of their papers and presentations. Such acknowledgment is critical to convey the impact of federal funding on advances in research. If you have not already done so, please add this statement provided [at this link](#) to your manuscripts and presentations.
