CFDR Summer Statistical Methods Seminar on Item Response Theory

Instructor: Dr. Tenko Raykov, Michigan State University

June 25 and 26, 9:00 am–4:00 pm

This two-day seminar provides a thorough introduction to Item Response Theory (IRT). IRT is an approach to evaluating the psychometric properties of instruments and scales used in research. Throughout the seminar, numerous empirical examples are utilized from the educational, behavioral, and social sciences. The popular packages Stata and Mplus are used in the examples, along with a detailed discussion of the needed command syntax and interpretation of the resulting output. Pre-registration is required as space is limited. To pre-register please reply to this email.
