CFDR's summer workshops will be conducted via WebEx.

Single-Year 2018 National Survey of Children’s Health (NSCH) Downloadable Data Sets and Codebooks

The Data Resource Center (DRC) has announced the release of the single-year 2018 National Survey of Children’s Health (NSCH) downloadable [data sets](#) and [codebooks](#) through childhealthdata.org. The 2018 NSCH was the third year of data collection since the NSCH redesign in 2016. This data release includes response for 30,530 children ages 0-17 years. For more information and resources on the NSCH visit the [DRC NSCH Overview](#).

Affiliates: Recent Publications or Presentations? New Working Papers?

To help us maintain an up-to-date website and to facilitate information collection for our required progress reports, please send us any new working papers and let us know about recent publications and/or presentations.
