

CFDR Update: March 12, 2021

---

### SSDAN Webinar Series: Analyzing US Census Microdata in R – March 25

The Population Association of America is sponsoring this webinar on March 25, 2021 from 2:00-5:00 pm. It is an introduction to analyzing microdata from the American Community Survey in R, focusing on new functionality available in the tidycensus R package. Participants will learn how to download microdata extracts directly from the Census website into R; work appropriately with survey weights to analyze microdata; and fit statistical models with microdata using R's survey package. More information is at this [link](#).

### Workshop on International Population Health – Enroll by May 1

Each day of this five-day intensive workshop is structured as an independent, 1-day, short course. Sponsored by the Summer Institute in Survey Research Technique, the workshop will meet daily June 28 - July 2 from 9:00 a.m. - 5:00 p.m., and include lectures and hands-on lab training. The [Chitwan Valley Family Study \(CVFS\)](#) will be used as a featured example and compared to other international population studies as appropriate for the daily topics. The workshop will be offered in a remote format. [Learn more](#) about the workshop and [apply to participate](#) through the Summer Institute in Survey Research Techniques.
