### Colloquium on the State of the Black America – Monday, May 17

The Princeton Office of Population Research is presenting a five-part colloquium series on the State of the Union. The second webinar in the series is on the state of Black America and will take place on Zoom May 17 from 3:00-5:00 pm. More about the colloquium and registration is at this link: [Webinar Registration - Zoom](#)

---

### Congratulations to the CFDR Poster Award Winners at the Population Association of America Meeting

- Kelly Balistreri, "Older Americans and the Food Security Infrastructure"
- Wendy Manning, Peggy Giordano, Monica Longmore and Ian King, "Verbal Conflict and Physical Violence During COVID-19: A Longitudinal Analysis of Young Men and Women"

---

### Evaluation of the Supplemental Poverty Measurement

The National Academies of Sciences, Engineering, and Medicine Committee on National Statistics' *Panel on Evaluation and Improvements to the Supplemental Poverty Measure* invites public comments from researchers, policy makers, and anti-poverty advocacy groups on how the SPM could be improved to better inform policy formation and public understanding of the levels and trends in needs among people with low incomes. Comment memos should outline your views on what you see as the strengths of the SPM as well as any areas in need of improvement. Comments are due June 19, 2021. For additional information on the Panel's Statement of Task and procedure for submitting comments, please visit

### Affiliates and Students: Acknowledgment Statement Required for Manuscripts and Presentations

Affiliates and students at NICHD-funded population centers are required to acknowledge population infrastructure support in all of their papers and presentations, including those in which the first author is not a CFDR affiliate. Such acknowledgment is critical to convey the impact of federal funding on advances in research. If you have not already done so, please add the statement provided [at this link](#) to your manuscripts and presentations.
