CFDR Update: July 9, 2021

NICHD Decoding Maternal Morbidity Data Challenge
Through its Decoding Maternal Morbidity Data Challenge, NICHD is seeking innovative approaches to secondary analyses of data collected from the Nulliparous Pregnancy Outcomes Study: Monitoring Mothers-to-be (nuMoM2b). The Challenge will be open until mid-October, after which, judges will judge the submissions and determine the prize winners. To learn more about the Decoding Maternal Morbidity Data Challenge, visit Challenge.gov. The NICHD Press release is here.

2021 Data-Intensive Research Conference – July 20 – August 5
This free, virtual event **will focus on research and resources for leveraging full count U.S. census data** and is being held on Tuesdays and Thursdays from July 20-August 5. The event is co-sponsored by the IPUMS Big Microdata Network and the University of Minnesota Life Course Center's NDIRA initiative. Registration is open through Sunday, July 18.

R01 Grant Opportunity: The Role of Work in Health Disparities in the U.S.
The Role of Work in Health Disparities in the U.S. The purpose of this Funding Opportunity Announcement (FOA) is to support innovative population-based research that can contribute to identifying and characterizing pathways and mechanisms through which work or occupation influences health outcomes and health status among populations with health and/or health care disparities, and how work functions as a social determinant of health.

CFDR Statistical Methods Consultant
CFDR statistical and methods consultant Dr. I-Fen Lin is available to assist CFDR affiliates with statistics or methods questions that might come up in the course of a research project. Please contact her for an appointment at ifenlin@bgsu.edu.
