

CFDR Update: August 4, 2023

Census Bureau Call for Papers: "Advancing Research on Race, Ethnicity, and Inequality"

The U.S. Census Bureau recently launched a new initiative: *Data Dissemination and Research Applications: Improving Underlying Race/Ethnicity Data*. They are organizing a virtual workshop to bring together new perspectives on how these data resources can be better leveraged to both measure the dimensions of race and ethnicity within the U.S. population and to investigate how systemic inequalities by race/ethnicity can be seen within U.S. society. [Click here for more about the workshop](#). Please submit paper drafts to census.race.ethnicity.inequality.workshop@census.gov by August 14.

Apply for Funding to Attend the 2023 EdSHARe Mini-Conference

Education Studies for Healthy Aging Research ([EdSHARe](#)) is an interdisciplinary, multisite, collaborative research project investigating the intersecting socioeconomic, institutional, and biological pathways through which education and early life conditions impact later-life health and cognition. EdSHARe will host a mini-conference in Minneapolis on November 2-3, 2023 and they are accepting applications for up to \$1,500 in support to attend. More details and application instructions are at this [link](#).

Affiliates and Students: Acknowledgment Statement Required for Manuscripts and Presentations

Affiliates and students at NICHD-funded population centers are required to acknowledge population infrastructure support in all of their papers and presentations, including those in which the first author is not a CFDR affiliate. Such acknowledgment is critical to convey the impact of federal funding on advances in research. If you have not already done so, please add the statement provided [at this link](#) to your manuscripts and presentations.
