

Distinguished University Professor Lecture

# JAMES ALBERT, PH.D.

YOU CAN OBSERVE A LOT BY JUST WATCHING:  
STATISTICAL LESSONS FROM SPORTS

SEPTEMBER 20  
4:00 - 5:00 P.M.

308 MCMASTER ROOM  
BOWEN-THOMPSON  
STUDENT UNION

The University community is invited to attend a lecture by Distinguished University Professor, Dr. James Albert. The presentation is titled, **“You Can Observe a Lot by Just Watching: Statistical Lessons from Sports.”**

Dr. Albert is a professor of mathematics and statistics and is an internationally recognized expert in Bayesian statistics. He has written a number of books in Bayesian modeling and computation and the application of statistical thinking in baseball. He was one of the pioneers in making sports analytics an academic discipline, and helped develop an undergraduate major in data science.

Dr. Albert has made many contributions to the University through his teaching and commitment to students. As one of the most prolific researchers at BGSU, his work has been cited nearly 7,000 times with more than 2,500 of those citations in the past six years.
